Main Orbit Developments, Manchester.

As an **extension** to your commercial or domestic space, the Tiger Terrace Awning allows you to bring the inside outside. The Tiger is **designed to protect** against glare, light rainfall and wind, creating the conditions in which you can continue to do **lucrative** business or just **simply relax** outside.

Many pubs, bars, restaurants and even domestic properties are investing money in developing their available outdoor space, whether as a smoking space or as a dining area/ additional room.
