

Top The Horse & Jockey, Newcastle.  
Bottom Bar Starfish, Manchester.  
Main Bar 1 Eleven, Cambridgeshire.

Especially designed to meet the requirements of outdoor catering, this sunshade concept provides an exclusive atmosphere in large areas. Its clear design is unique and lends its very own unmistakable charm to any outside area.

All Lion Umbrellas are wind tunnel tested to stand up to the most rigorous use, and of course, the demands of the British climate. With 4 shapes available – Square (4 sided), Rectangular (4 sided quadrilateral with four right angles), Octagonal (8 sided) and Dodecagon (12 sided) the Lion sizes range from 4000mm to a massive 10000mm in diameter. These sunshades stand out by virtue of their robust construction, ease of operation and maintenance-free drive.

## Technical Information

- Width (mm): Up to 10000 in a single umbrella.
- Standard RAL colours: White (9010), Brown (8019).
- Corrosion resistant, powder coated, extruded aluminum hardware.
- Stainless steel components.
- All moving axes are fitted with bolts. This extravagant technology ensures maximum stability and durability as well as easy execution of repairs.
- Wind tested and can be opened at a wind speed up to 50km per hour.
- The cover fits perfectly even after years of use due to a special self-tightening spring mechanism.
- Robust, central rods consist of a disc with support struts and spokes.
- In order to prevent the spokes from twisting, the lower die-cast disc is firmly welded to the support pole
